You have up to 24 hours from the time of ticket purchase to receive a full refund if you booked at least 2 days before departure. Once canceled, your refund will be processed automatically.

If you have purchased a NON-REFUNDABLE fare, the itinerary must be canceled before the ticketed departure time of the first unused coupon or the ticket has NO VALUE. If the fare allows changes, a fee may be assessed for changes and restrictions may apply.

Some American Airlines check-in counters do not accept cash as a form of payment. For more information, visit our [Airport Information](#) page.

Some everyday products, like e-cigarettes and aerosol spray starch, can be dangerous when transported on the aircraft in carry-on and/or checked baggage. Changes in temperature or pressure can cause some items to leak, generate toxic fumes or start a fire. Carriage of prohibited items may result in fines or in certain cases imprisonment. Please ensure there are no forbidden hazardous materials in your baggage like:

Some Lithium batteries (e.g. spares in checked baggage, batteries over a certain size), Explosives / Fireworks, Strike anywhere matches/ Lighter fluid, Compressed gases / Aerosols Oxygen bottles/ Liquid oxygen, Flammable liquids, Pesticides/ Poison, Corrosive material.

There are special exceptions for small quantities (up to 70 ounces total) of medicinal and toilet articles carried in your luggage, spare lithium batteries for most consumer electronic devices in carry-on baggage, and certain smoking materials carried on your person.

Certain items are required to be carried with you onboard the aircraft. For example, spare lithium batteries for portable electronic devices, cigarette lighters and e-cigarettes must be removed from checked or gate-checked baggage and carried onboard the aircraft. However, e-cigarettes may not be used on-board the aircraft.

Traveling with medical oxygen, liquid oxygen, mobility aids and other assistive devices may require airline pre-approval or be restricted from carriage entirely. Passengers requiring these items should contact the airline operator for information on use of such devices.

Chemical sprays on international flights Flights to and from certain countries require insecticide treatment (a process known as disinsection) inside the cabin for insect and disease control. The U.S. Department of Transportation provides full information about the spray and the countries required to use it. [Aircraft disinsection requirements](#).

Check-in lines will vary by departure location. In order to determine the time you need to check-in at the airport, please visit www.aa.com/airportexpectations.

If you are traveling internationally, please ensure that you have the proper documentation. All necessary travel documents for the countries being visited must be presented at airport check-in. Check with the consulate of these countries to determine the documents required. Additional information can be found at [International Travel](#).

We place limitations on checked baggage and boxes on some flights to Mexico, the Caribbean, Central and South America. To confirm what you can take on your journey please see [Baggage Limitations](#).
